## MARKING 4 ALL

IDENTIFICATION MARK OF OWNERSHIP  
PREVENTION OF THEFT AND BURGLARY  
PREVENTION AND DETERMINATION OF  
PRODUCT COUNTERFEITING

## Identification Mark of Ownership

- Prevention is the primary goal of Identification Marks of Ownership. Although theft in itself is not made more difficult, the risk of subsequent detection increases and extends with the theft of valuables that have an Identification Mark of Ownership.
- The Identification Mark of Ownership enables the allocation of stolen goods to the owner and, therewith, the crime scene. As a result, marked valuables such as watches, Oldtimer, cars, bicycles, laptops, tablets, smart phones, tools or machinery lose their attraction for potential perpetrators and dealers in stolen goods.
- The use of marking substances in theft traps serves as an additional deterrent.
